

June 2016

I stayed on the Cottage for two and a half months. It's a really lovely place one hour away from Melbourne. So if you got off it's a nice chance to visit Melbourne because it's only an one hour train trip.

The accommodation is really clean and you have a heater in your house if it is getting cold in winter. There is always plenty of food and they bought every food you want.

I came really good along with Chris and Deborah. They are two lovely persons who take a lot of care about their backpackers.

The general duties have been feeding in the morning (which can take a time with 17 horses) but it's always a lot of fun. And then you can do stuff with horses. Which means riding, lounging or doing some groundwork (but just if you are experienced enough of course). And then feeding in the evening again. They are also sometimes some duties around the property like picking up sticks or mowing.

If you are interested in horses and you have some experience this is the right place for you. I learned so much about horses in this two and a half months I never learned somewhere before (and I am riding since 13 years).

This is one of the reasons why I want to come back.
