

August 2017

Welcome to the Cottage.

So many girls have had some of the best times of their lives here. This place is full of stories and will forever live in our memories.

You can make friends from across the world. Enjoy every moment of your stay here, sure there will be some bad times- frustrating lessons where you can't go right, or bad weather that spoils your plans but don't let it slow you down or hold you back.

Learn as much as you can from Chris and Deb and the girls you meet here.

Try and do something that scares you or pushes you out of your comfort zone every day. Find out about new techniques or skills you have never heard of and learn them off by heart.

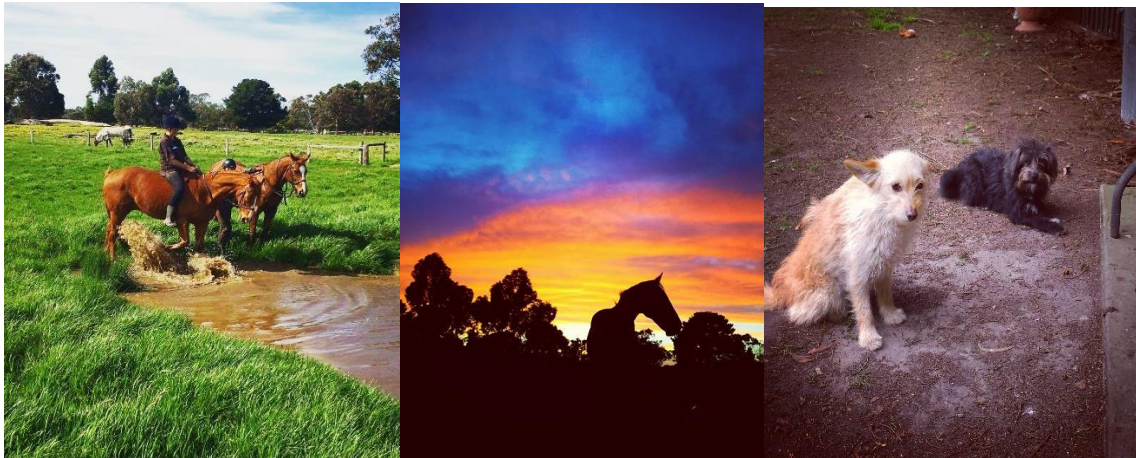

But most of all remember how lucky you are to be here experiencing these days.

Love and care for the horses as if they were your own. Discover all their unique personalities and work hard to gain their trust and respect to create the best partnership you can.

Play with the dogs, spoil them and give them cuddles, they will always put a smile on your face!

Have the best time! Love Nicola 28yo from the UK

Here at the Cottage for 14 months.
